

## MSW Clinical Advanced Standing Full-Time Program

For students who qualify for admission to the MSW Advanced-Standing program, classes for the clinical concentration may be taken in the full-time format. All of the core courses and many of the clinical electives are offered both during the day and evening. Students typically take twelve (12) to fifteen (15) hours a semester. The advanced-clinical field placement is completed in a full-time fashion. It typically takes a student one (1) year to complete the 39 credit-hour program in this fashion.

The Clinical Concentration curriculum enables students to meet the following objectives:

1. Assess, diagnose, and treat clients' psychosocial problems through individual, couple, family, and/or group modalities.
2. Facilitate clients gaining access to appropriate community resources.
3. Work cooperatively and/or collaboratively with other human service professionals to plan and implement services to clients.
4. Conduct empirical evaluations of their own practice interventions.
