

MSW Clinical Traditional Part-Time Program

For students who qualify for admission to the MSW Traditional program, classes for the clinical concentration may be taken in the part-time format. All of the core courses and many of the clinical electives are offered in the evening hours (5:30- 8:15 p.m.). Students typically take six (6) hours a semester. Both the generalist and advanced- clinical field placements can be completed over two semesters in a part-time format. It typically takes a student nine (9) semesters or three (3) years to complete the 61 credit-hour program in this fashion.

The Clinical Concentration curriculum enables students to meet the following objectives:

1. Assess, diagnose, and treat clients' psychosocial problems through individual, couple, family, and/or group modalities.
2. Facilitate clients gaining access to appropriate community resources.
3. Work cooperatively and/or collaboratively with other human service professionals to plan and implement services to clients.
4. Conduct empirical evaluations of their own practice interventions.
