

## MSW Advanced Standing Part Time Online

For students who qualify for admission to the MSW Advanced-Standing program, classes for the clinical concentration may be taken online in the part-time format. All of the required courses and many of the clinical electives are offered in the online asynchronous format. Students typically take six (6) hours a semester. The advanced-clinical field placement can be completed over two semesters in a part-time format. This placement can be completed in the student's area of residence. It typically takes a student six (6) semesters or two (2) years to complete the 39 credit-hour program in this fashion.

The Clinical Concentration curriculum enables students to meet the following objectives:

1. Assess, diagnose, and treat clients' psychosocial problems through individual, couple, family, and/or group modalities.
2. Facilitate clients gaining access to appropriate community resources.
3. Work cooperatively and/or collaboratively with other human service professionals to plan and implement services to clients.
4. Conduct empirical evaluations of their own practice interventions.
