Field Placement Guidelines

The Office of Field Education assists in the selection of internships designed to offer the highest standards of practice and training in child welfare. The internships are designed to provide students with closely supervised experiences in child welfare practice, including work with families, assessments, case management, counseling, documentation, and evaluation of services. Internships are primarily located within the Department of Children and Families or CBC Agencies around the state of Florida, however other agencies are appropriate if they meet the following guidelines:

1. The agency must have a child welfare focus.
2. Opportunity to work directly with clients, with interventions that focus on the family as a whole or as a subunit.
3. Opportunity to work in all phases of the treatment process.

To learn more about field placement opportunities with respect to the Child Welfare Certificate, please contact the director of field education, Katrina Boone, MSW at (850) 644-9743 or kboone@fsu.edu.
