### Bachelor of Social Work (BSW)

Social work is a profession committed to serving individuals, families, and communities that reflect a wide cross section of humanity, regardless of race, gender, sexual orientation, age, religion, national origin, marital status, political belief, mental or physical handicap, or any other preference or personal characteristic, condition, or status. In the interest of serving these diverse populations, the College of Social Work places a strong emphasis on recruiting a student body which reflects these values. The Bachelor of Social Work (BSW) degree is most suited for entry-level positions in areas such as family services, child welfare, public health and substance abuse. The Bachelor of Social Work program at Florida State is **LIMITED ACCESS**, requiring you to meet minimum admission requirements and to submit an application.

### Programs of Study

The BSW program requires at least four semesters to complete all course requirements for the major. A minimum of 50 credit hours in social work is required for graduation: 38 credit hours of coursework and 12 credit hours of field education; which constitutes a minimum of 512 clock hours at the end of the program of studies in a supervised internship. While our program is 50 credit hours, you will need a total of 120 credits to earn a bachelor's degree at FSU.

#### Note:

The College of Social Work makes decisions about transfer of credit towards requirements specifically for the social work major and only accepts 1) social work course work from a CSWE-accredited institution 2) a maximum of 24 social work credit hours and 3) social work course work with a grade of 3.0 ("B") or better.

### Locations

#### Tallahassee - Main Campus

The BSW program is primarily designed for full-time students in the last two years of their baccalaureate education, following completion of liberal studies requirements and other prerequisites. You may take courses on a part-time basis, but most courses are offered during daytime hours.

## STUDENT HIGHLIGHTS

**NAKAYCIA BREWTON**

"I chose the social work profession because I would like to narrow disparities in healthcare and advocate for wellness for all people. I believe that social workers are the bridge that can lead underrepresented populations to a better life."

"I chose social work because I wanted to better the human experience. My experiences in the BSW program taught me that if I continued to approach life with the mindset of placing a higher value on my wellbeing instead of another individual, I would not leave this world as a better place than when I entered it."

**CHRISTOPHER GUTIERREZ**

"I chose social work because my entire mind and body marches for social justice, it marches until all of my neighbors have what they need to live full and joyful lives. Social work prepares you to see what your role is in creating that positive change and it gives you the tools you need to step into that role."
