STUDENT HIGHLIGHTS

CONQUALLA SCOTT

"I chose social work because everyone needs someone. Social work has given me the opportunity to represent and advocate for underserved, underrepresented communities.

The BSW program has allowed me to explore different avenues of social work as a profession and helped me to develop into the person I am today. The program has shown me how I can make a difference and that I am truly passionate about empowerment and advocacy."

"My inspiration to become a social worker stems from my desire to leave a positive impact on the lives of others. Growing up I always knew I wanted a profession where I could help others, and social work allows me to do that. My experiences in the BSW program have broadened my view of social work through in-depth class discussions and by connecting me with professionals

JACK MCGEE

MAKAYLA EVANS

"I wanted to become a social worker to help people like my mom. As an Asian American she struggled with a slew of challenges and needed someone to talk to who had the cultural competencies needed to build rapport with a client.

My experience in the BSW program taught me how to be the change the change I want to see in the world. Even if hundreds of people recognize an issue, it still takes requires someone to take action to do something about it. This program taught me how to be that person.

Given the ethical responsibilities of professional social work practice to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty (NASW Code of Ethics, 2020), the College of Social Work has established Professional Standards for students that not only focus on academic performance but that also emphasize the abilities and attributes essential for the profession. This document describes the Professional Standards each student must satisfy, with or without reasonable accommodations, to enroll in, fully participate in, progress through and graduate from any College of Social Work program. These standards apply in the classroom, field placements, college and university.
